

THE SELHURST MEDICAL CENTRE

Patient Participation Group Open Meeting - Wednesday 25th June 2014

The Selhurst Medical Centre PPG organised an open meeting on Wednesday 25th June 2014. Dr M Haq, Consultant in Diabetes at Shirley Oaks Hospital was invited to give a talk on the latest on management of diabetes, lifestyle advice and tips to stay healthy.

All patients were invited to the meeting however due to limited spaces priority were given to diabetic patients. Posters on the open meeting were advertised in the waiting room, on the practice website and in local public places. Posters in Hindi were also available for our Hindi speaking patients. Diabetic patients with poor management history were sent fliers and asked to send in questions they may have for the guest speaker.

The meeting was held at the waiting room in the surgery. The local Sikh Temple were very supportive in providing chairs for the event. Drinks and refreshments were available. There were about 45 people that attended the meeting. The meeting started at 7pm and PPG members were at the entrance to receive the attendees.

Dr M Haq gave a brilliant presentation on the management of diabetes and answered numerous questions from the audience. Dr Haq gave some valuable lifestyle advice which the patients found very useful.

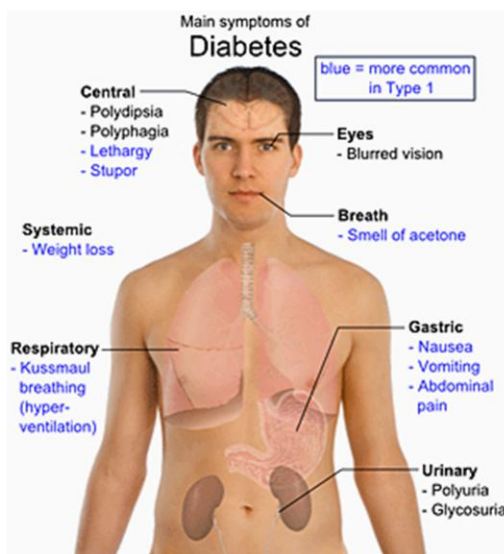

The presentation finished at 9pm and Ms Kalsi spoke on behalf of the PPG to give a word of thanks. Free diabetic leaflets and pamphlets were given out to the audience.

Below are photos of Dr Haq giving the presentation and posters advertising the event
